

The Tibetan monks of Drepung Gomang Monastery

Ancient Tibetan Sand Mandala Creation and Prayers for World Peace and Compassion

Witness the step-by-step creation of a traditional Tibetan Sand Mandala - an ancient art form of Tibetan Buddhism. Mandalas are drawings made of colored sand which represent the ordinary human mind transformed into the enlightened mind.

Also, during their stay with us, sacred ritual items and clothing will be offered for sale. The sale of these items and donations for their ceremonies are used to support Drepung Gomang monastery located in India. Please don't miss these very special events!

All events are sponsored by Sacred Paths Community and Pure Inspiration, the official sister organization of Drepung Gomang monastery
